# Applying Professional Scrum (APS)

A Team Based Training to Solidify Your Knowledge  
Through Practice

Applying Professional Scrum™ (PSF) is a 2-day course that provides the foundational knowledge needed to work with Scrum in a highly practical way. The course is a combination of instruction and team-based exercises where students experience how the Scrum framework improves product development efforts. The course also includes a free attempt at the globally recognized Professional Scrum Master I certification exam (PSM I).

# Professional Scrum Master (PSM I)

Learn Scrum From Those Who Created and Maintain It

The Professional Scrum Master (PSM I) course is a 2-day course where students learn how to use Scrum to optimize value, productivity, and the total cost of ownership of software products. Tools are provided to enable students to relate to behavioral shifts, work with people and teams, coach and facilitate techniques, and address the organization. Discuss agile training and coaching. The course also includes a free attempt at the globally recognized Professional Scrum Master I certification exam (PSM I).

PROFESSIONAL SCRUM MASTER II™

PSM II

# Professional Scrum Master II (PSM II)

An Advanced Scrum Master Class

The Professional Scrum Master II (PSM II) course is a 2-day Advanced Scrum Master course designed to support experienced Scrum Masters in their professional journeys. This course is a combination of instruction and facilitated exercises looking at the challenges that Scrum Masters face and how the principles and values of Scrum help them to deal with those situations. Discuss agile training and coaching. The course also includes a free attempt at the globally recognized Professional Scrum Master II certification exam (PSM II).

# Professional Scrum Product Owner (PSPO)

Learn Scrum From Those Who Created and Maintain It

The Professional Scrum Product Owner (PSPO) course is a 2-day course on how to maximize the value of software products and systems. Product Owners need to have a concrete understanding of everything that drives value from their products where students learn through instruction and team-based exercises. Discuss agile training and coaching. The course also includes a free attempt at the globally recognized Professional Scrum Product Owner I certification exam (PSPO I).

# Professional Scrum Product Owner – Advanced (PSPO–A)

A Team Based Training to Solidify Your Knowledge  
Through Practice

This 2-day Professional Product Owner – Advanced (PSPO-A) course focuses on helping experienced practitioners expand their ability to establish a solid vision, validate their hypotheses, and ultimately deliver more value to their stakeholders. The PSPO-A course is intended for Product Owners who are looking to grow their knowledge and abilities.

The course goes beyond the topics explored in the Professional Scrum Product Owner (PSPO) class by deepening the attendee's understanding of the role through the exploration of the many stances of a professional Product Owner. This course is an interactive, experiential workshop where attendees explore topics through a series of exercises and discussions. Students should have at least one year of Product Owner experience and practical knowledge of Scrum in order to participate in and benefit from these exercises.

The course also includes a free attempt at the globally recognized Professional Scrum Product Owner II certification exam (PSPO II).

# Professional Agile Leadership Essentials (PAL-E)

Learn Scrum From Those Who Created and Maintain It

The Professional Agile Leadership Essentials (PAL-E) is a 2-day hands-on workshop that uses a combination of instruction and hands-on exercises to help managers and other leaders who work directly with agile teams understand how to best support, guide, and coach their teams to improve their agile capabilities. The workshop provides a foundation for the role that leaders play in creating the conditions for a successful agile transformation. Discuss agile training and coaching. The course also includes a free attempt at the globally recognized Professional Agile Leadership I certification exam (PAL I).

# Professional Scrum with User Experience (PSU)

Bridging the Gap Between Scrum, UX and Design Practices

Professional Scrum with User Experience (PSU) is a 2-day hands-on course where students who already have a fundamental understanding of Scrum and some experience using it will learn how to integrate modern UX practices, (UX is more than UI) into the way they are working in Scrum and how to work most effectively within Scrum Teams. Design work can sometimes feel slow, and not well suited to quick agile cadences and Scrum events, but that isn't the case. Learn UX techniques that fit beautifully into Scrum, and practice these techniques with cross-functional teams in class. Discuss agile training and coaching. The course also includes a free attempt at the globally recognized Professional Scrum with User Experience I certification assessment (PSU I).

# Professional Scrum with Kanban (PSK)

Learn Scrum From Those Who Created and Maintain It

Professional Scrum with Kanban (PSK) is a 2-day course that teaches Scrum practitioners how to apply Kanban practices to their work. Through theory, case studies, and hands-on exercises, participants will understand the importance of transparency and flow as it pertains to the Scrum framework.

All participants completing the Professional Scrum with Kanban course will receive a password to attempt the Professional Scrum with Kanban I (PSK I) assessment. PSK class participants who attempt the PSK I assessment within 14 days of receiving their free password and do not score at least 85% will be granted a 2nd attempt at no additional cost.

LED PROFESSIONAL SCRUM™

SPS

# Scaled Professional Scrum with Nexus (SPS)

Learn Scrum From Those Who Created and Maintain It

Scaled Professional Scrum (SPS) with Nexus is a 2-day course that is designed as an experiential workshop where students learn how to scale Scrum using the Nexus Framework. Throughout, you are introduced to the artifacts and events within the framework, the new Nexus Integration Team role, along with more than 50 associated practices.

All participants completing the Professional Scrum with Kanban course will receive a password to attempt the Scaled Professional Scrum with Nexus (SPS) assessment. SPS class participants who attempt the SPS assessment within 14 days of receiving their free password and do not score at least 85% will be granted a 2nd attempt at no additional cost.
